

Finally ... someone has put it all together.

9 1/2 Phillips Rating...the highest ever awarded.

ARE YOU GETTING LEFT BEHIND?

NEW AGE HANDICAPPERS

If you are handicapping today the same way you handicapped five years ago, chances are you are finding it harder and harder to make money at the track. This is because there is a savvy group of handicappers at every track who have moved well beyond just speed figures and the other limited information in racing forms. And, these "new age" handicappers are your competitors! Well, **ALL-Ways handicapping software can help bring you into the 21st century of handicapping.** And, you do not need to be a computer expert because ALL-Ways was designed by handicappers for handicappers and not for computer gurus. And, unless you want to, you do not need to take a computer to the track. Simply print ALL-Ways handicapping reports in the comfort of your home and take them with you to the track.

THE ELECTRONIC INFORMATION EXPLOSION

Handicapping with just old style traditional handicapping information just won't cut it any more, at least not if you want to play profitably. More and more handicappers are using the Internet to obtain advanced handicapping information. In just a matter of seconds, you can download an ALL-Ways data file into your computer for the date and track(s) you want to play. Then by just clicking a single button, ALL-Ways software will process the data file to calculate all the unique ALL-Ways handicapping factors and organize the information so it is easy for you to use.

So, what do you get that other handicappers do not get? ALL-Ways provides you with 87 comprehensive handicapping factors that cover each horse's suitability to the distance and surface, current form, class level, ability to handle the probable pace and speed demands of the race as well as advanced jockey, trainer and pedigree information. **And, this includes powerful handicapping factors that are exclusive to ALL-Ways and not in the hands of the general public.** You also get the key handicapping factors designed by true experts in the industry, including the Tom Brohamer (from the Sartin Methodology), Tom Hambleton, William Scott and William Quirin.

FREE PAST PERFORMANCE REPORTS

The ALL-Ways data file drives your ALL-Ways software. It will also print out the wildly popular BRIS Ultimate Past Performances in the familiar racing form format ... **absolutely free and one or two days before the race day and in the comfort of your own home. Wow!**

SIMULCASTS AND/OR ACCOUNT WAGERING

Most successful players will tell you they typically get 1, 2 or 3 plays on a race card. They do not try to play every race. Indeed, most races are generally either too contentious to handicap successfully or they have legitimate favorites. This fact is probably the main reason why simulcast wagering, including account wagering from home, have become phenomenally popular. Playing one to three races on a card at multiple tracks gives you lots of action and helps keep you disciplined to play only the races that you should be playing. **ALL-Ways software is a simulcast and account wagering players dream come true.** ALL-Ways gives you the tools to handicap multiple tracks fast and effectively. Also, ALL-Ways software automatically handicaps differently and appropriately for each type of race at each track you play and automatically takes into account the prevailing track bias and the pace match-up scenario in the race. **ALL-Ways handicapping is both race type and race track specific.** ALL-Ways will even show you the types of races at each individual track that have the best Win, Exacta and Trifecta payoffs!

THE REVOLUTIONARY ALL-WAYS CUSTOM CARD™

The exclusive ALL-Ways Custom Card capability lets you define the kinds of races you want to play and then have Custom Card search all race cards being run at all tracks in North America and construct a custom race card made up of just the races you like to play at just the tracks you like to play. You can even specify how much pace pressure you want in the races such as races with lone front runners and/or races with a lot of early pace pressure that may set up for high priced closers. This is the ultimate in "New Age" handicapping!

LARGE PROFITS REQUIRE PLAYING EXOTIC WAGERS

If you want to make big money at the track, you will probably need to play the so called Exotic Wagers (Exactas, Trifectas, Daily Doubles, Pick 3s, etc.). **Here comes ALL-Ways software to the rescue again. ALL-Ways software pays as much attention to identifying place, show and 4th place horses as it does win horses.** And, ALL-Ways gives you unbelievable tools to help you spot false favorites as well as high priced surprise in-the-money finishers that make these payoffs skyrocket. ALL-Ways even recommends Key Horses for your wagers and has wagering analysis tools to help you construct your wagers. **Exotic players have never had it so good!**
